Freeths LLP

Freeths is a leading national law firm where finding solutions for our clients is at the forefront of our minds.

There's more to Freeths than figures. We feel that honesty and success go hand in hand. What makes us unique is our culture, which we call 'freethinking'. In essence, it means that a Freeths' lawyer brings much more to the client relationship than just an understanding of the law. Freethinking is about entrepreneurialism; it is about doing the right thing; it is about building trust, and most importantly of all it's about delivering results for our clients.

At the heart of everything we do are our clients' legal needs and best interests. Our approach in working with clients is rooted in building value through the great service that we provide. This is evidenced by the client feedback we have received in the UK's leading legal directories, where it was said: *"Freeths LLP is a 'regional leader', where the team demonstrates 'consummate skill, client care and relentless attention to detail', placing it 'head and shoulders above competitors'."*

Being a Freeths' client means you receive a service which is all about having your legal issues dealt with quickly and efficiently by lawyers that provide clear answers rather than options, leaving you confidently experiencing an excellent service, time and time again. We do this by putting ourselves in our clients' shoes, see their vision and listen to their ideas so that we can make those ideas happen.

Wise Investment

Wise Investment is an independent employee owned wealth management company.

We work with our clients to support them in planning their financial affairs for the long term. Dealing with finances can feel like something very complicated and our aim is to make this process as stress free as possible whilst also avoiding as much jargon as we can.

A client of ours might be thinking about their long term retirement plans, or perhaps have built up a collection of pensions from various employers but haven't reviewed them for a while. Or they might be nearing retirement and need to look at options in terms of their income once they stop working. Or maybe it's a family that are looking at protecting themselves in terms of life insurance or income protection and just starting to think about saving for the long term. We offer a very personalised service and all our clients deal with one dedicated Financial Planner and one Administrator so that a close relationship can be built over time.

Employee ownership is at the heart of who we are. This ensures the longevity of the business and as we are all Partners it ensures that we are all aligned with our clients needs as well as the business needs. We believe this results in a better service to our clients as our staff have a higher level of engagement with the business and are more highly motivated.

MORE ABOUT US

Wise Investment operates from an office set in a rural location just outside Chipping Norton.

Many of our clients are based in Oxfordshire or surrounding areas but we also offer a service to clients nationwide.

We are an experienced team of 30+ people and we are looking forward to hearing from you to discuss your needs.

Wise Investment is authorised and regulated by the Financial Conduct Authority (firm reference number 230553). Your capital is at risk as values can go down as well as up.

MODUS Accountants

Not the usual accountant experience you have heard time after time...

You've probably experienced or heard about it many times. You see your accountant once a year, typically 4 – 7 months after your financial year end, pay your tax, pay their bill and hope that you've made a profit...

Ever tried driving along a county lane at night without your headlights on? Of course, you haven't. Knowing that you've made a loss 6 months after your year end is not much use and is the reason so many businesses go bust in the first 5 years. It's not because their product or service wasn't good enough, it's because they didn't know where they were going because the headlights were off, or they didn't know how to switch them on...

This is why we decided to set up Modus Accountants.

We want to work with passionate business owners and property investors who have a thirst for knowledge and drive to build an amazing business.

MORE ABOUT US

It's any good accountants' job to help you crunch your numbers, make sure your business is compliant and to save you money when submitting your taxes. What makes Modus Accountants different is that we use your numbers to generate real business data.

FOCUS Oxford Risk Management

FOCUS Oxford Risk Management Ltd are experts in providing bespoke insurance, mortgage and protection solutions.

Working with both business and private clients, we specialise in providing tailor-made advice, particularly designed to meet requirements that cannot be met by an "off the shelf" package.

We take a personal approach, getting to know and understand the individual needs of our clients.

Our qualified advisers are on hand to guide clients through the entire mortgage process. We believe that it's important for our clients to understand their property journey as well considering other aspects of their financial health such as financial protection/life insurance and home/property insurance solutions.

Our team of home insurance experts provide tailor-made home buildings and contents insurance, specialising in high-value home insurance and the additional concerns and risks that can arise.

MORE ABOUT US

We understand that every home is different and every person's possessions are unique. Therefore, we don't expect you to have an off-the-shelf home insurance package. We take the time to evaluate individual circumstances and provide bespoke home insurance solutions.

For our business clients, we are here to help companies of all shapes and sizes. From start-ups and University spin-outs to companies with a global presence, our commercial insurance experts are on hand to deliver bespoke insurance solutions suited to your specific needs.

Furthermore, we are one of only a handful of specialist advisers able to deal with the insurance needs of the world of life sciences, technology or healthcare industries.
